## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kelley (US Patent No. 5,555,742). Kelley discloses an evaporative cooler /enthalpic heating system comprising: an evaporative cooler system (10), evaporative section (12), air movement, a heat exchanger (61) is connected by tube line (60) to the sump reservoir (50), a wettable pad mounted in evaporative section whereby water is supplied to the upper surface of said wettable pad by way of a plurality of nozzles.

## Allowable Subject Matter

Claims 2,3,5,6,11,17,25,28 & 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
